

François Ventura has developed a fascination for the infinite and varied landscapes of Lake Geneva. He realized a series of photographs taken from the same location, the same horizon, the same subject : the Lake. Only the time and framing change. The images have been selected specifically for the Château d'Ouchy. This work is a reflection of nature, the seasons, the wind, the clouds, the sun, the night.. Those untouched images represent the immensity of nature, and also the mirror of our moods and emotions. www.lake-a-mirror.ch

**All photos are printed on high quality Hahnemühle paper, framed. Editions of 5 - numbered and certified.
 Different formats are available**
